Notes: Beginning with fiscal year 2000, a footnote will be added when the "% change from Prior Fiscal Year" changes by 20% or more.

(1) During the fiscal year, changes in economic conditions resulted in the need for an increase in borrowings from the public to finance federal spending. This increase is primarily a result of the federal government's response to the financial market crisis and the economic downturn.

(2) During the fiscal year, the increase is primarily a result of reduced federal revenues and the federal government's response to the financial market crisis and the economic downturn.
